Nick Taylor, Ed.D., Chief Business Official

DISCUSSION

Dr Taylor

- CBO Report on the Final Completion of the Washington Preschool Relocation Project
- Final overview of Completed Bond Projects

Dr. Taylor addressed the Bond Oversight Committee members regarding the completed modernization and renovations to the Preschool site and classrooms, which included the special needs classroom that will be overseen by Heather Schofield and the Educare Services classroom that also meets the needs of our preschoolers. He pointed out some of the changes that had to be made in order to comply with State and City regulations; one example was the re-design of the site's parking lot.

Board Chair Dean Johnston and Board member Scott Carlson both inquired about the fiscal side of the Bond Projects and also how the ADA counts will affect the School District. Dr. Taylor briefly explained how the District will manage the budget for the 2020-2021 school year.

Board members Sarah Lane and Scott Carlson asked questions in regards to how the District would manage the regulations in place, for students returning to school and also with the new housing development project currently in progress in Kingsburg, would there be room for the incoming students. Dr. Taylor assured the members that there is definitely room for new students and went on to explain as to the options that are now being discussed to open the School District for students safely.

A brief overview was given by Dr. Taylor as to the completed Bond projects by site, he went on to explain how beneficial to the School District and how important it was for the community to see the realization of these projects and appreciate what the passing of the Bond has produced.

Dr. Taylor thanked the Board for attending.

ADJOURN

Meeting was adjourned at 9:40 a.m.

Secretary, Citizens' Bond Oversight Committee-Measure A
